DYLAN DOMBROWSKI

Louisville, KY ♦ 815-545-8180 ♦ dyland601@gmail.com

Professional Summary

Aspiring software developer with a strong foundation in computer science and a passion for building innovative applications. Proficient in C# and Python and experience in developing basic web applications using Flask. I am completing my bachelor's degree in Computer Information Systems, focusing on Web Development, and seeking an entry-level role at a forward-thinking company where I can learn and grow as a professional.

Skills

- Strong understanding of C#, as demonstrated by successful completion of Software Development I and II courses.
- Collaborated with a team to design specifications for a not-for-profit client, improving my written and oral communication skills.

- Proficiency in developing web applications using **Python**, **Flask**, **CSS**, **HTML**, and **JavaScript**
- Unified Modeling Language (**UML**) for modeling and design
- Experienced with **Git** for version control

Work History

Office Assistant, August 2022 - Current
University Of Louisville – Louisville

- I contributed to the success of the class by accurately evaluating and recording student scores, which helped to ensure fair grading and provide valuable feedback to students.
- I worked closely with professors to monitor class schedules and take attendance, which helped to ensure smooth and efficient operations in the classroom.

Assistant Manager of Operations, August 2017 – December 2022
Pizza Mia! New Lenox – New Lenox, IL

- Led and managed a team of 3-5 employees, maintaining and delegating tasks to remain efficient.
- Handled customer inquiries and complaints, resulting in increased customer satisfaction.
- Trained new employees on food safety and customer service standards.

Education

Bachelor of Science: Computer Information Systems, Graduating in May 2024
University of Louisville - Louisville, KY
